

Public Service Announcement

June 25, 2021

We're excited to launch a new version of the SAPL app!

The new SAPL app features a clean, modern interface.

This is not an update, it's a whole new app! This brand new, totally redesigned version of the SAPL app is now available for both Android and Apple devices. It features a clean, modern interface and showcases your most important information – holds, due dates and other account details – right there on the home page. It's easier than ever to search and place holds, and to explore app features like “My Shelves.”

Users of the current app will be notified the next time they open it.

If you use the SAPL app, the next time you log in you will see a notification advising you to update to the new version. iPhone and iPad users will need to log in to the App Store on their device, and search for “St Albert Public Library” in order to locate and install the new version of the app. No intervention is required by Android users – the Android version of the app will update automatically for you.

The old app will continue to work for the time being.

The current version of the SAPL app will continue to work on your devices for the time being, but we encourage you to make the switch as soon as you're able, to enjoy the ease of the newer technology.

New and current users can download the new app from the Library website.

If you're new to the SAPL app, you can find links to the iOS and Android versions in the webpage footer at sapl.ca. iPhone and iPad users will need to log in to the App Store and search for “St Albert Public Library” to locate and install the new version of the app. The Android version will update automatically.

Need assistance in setting up the new SAPL app?

Call us at 780-459-1682 or 780-544-0444 during Library hours or email sapl@sapl.ca.
